

M E M O

TO: District Manager

FROM: Director of Operations

SUBJECT: Operations Department Project Status Report
Week Ending October 14, 2005

DATE: October 17, 2005

RECOMMENDATION:

It is recommended that the District Manager review and file the Operations Department Project Status Report for the week ending October 14, 2005.

BACKGROUND:

Bacteriological Sampling Station

During the reporting period, staff continued with the installation of Bacteriological Sampling Stations. Mainline tapping and underground has been completed for the Quail Hollow Road station. These stations are dedicated to bacteriological water quality monitoring throughout the distribution system.

Blackstone Booster Replacement/Upgrade

Staff continued with construction of the Blackstone Booster Pumping Station Replacement Project. During the reporting period, staff poured the concrete foundation and installed underground plumbing and electrical. The budget project consists of a complete upgrade including duplex pumps, new electrical, SCADA control, emergency operations and security.

Rain Gage Installation

Staff installed a rain collection station at the Bear Creek Estates Wastewater Leach Field Facility. The District monitors rainfall at various locations throughout San Lorenzo Valley/Scotts Valley watershed. This station will be monitored utilizing the District's SCADA system.
