

M E M O

TO: District Manager

FROM: Director of Operations

SUBJECT: Operations Department Project Status Report
Week Ending December 9, 2005

DATE: December 8, 2005

RECOMMENDATION:

It is recommended that the District Manager review and file the Operations Department Project Status Report for the week ending December 9, 2005.

BACKGROUND:

Blackstone Booster Replacement/Upgrade

Staff continued with construction of the Blackstone Booster Pumping Station Replacement Project. During the reporting period, staff completed laying the block for the building. In addition, roof rafters have been installed and architectural rock has been installed on the foundation. The budget project consists of a complete upgrade including duplex pumps, new electrical, SCADA control, emergency operations and security.

Probation Waterline Replacement Project

Staff continued with the replacement of approximately 1,400 lineal feet of eight-inch water line in the Scotts Valley area. To date, the waterline has been installed and both wells have been changed over to the new water line, in preparation for blending. The waterline replacement project is part of the District's Arsenic Mitigation Plan for blending water from Pasatiempo Wells 6 & 7.
