

MEMO

TO: District Manager

FROM: GIS/Engineering Technician

SUBJECT: ENGINEERING DEPARTMENT STATUS REPORT
WEEK ENDING FEBRUARY 27, 2009

DATE: February 26, 2009

RECOMMENDATION:

It is recommended that the Board of Directors review and file the Engineering Department status report for the week ending February 27, 2009.

BACKGROUND:

UPPER EL SOLYO HEIGHTS WATER SYSTEM MUTUALS

Staff met with a resident in the upper El Solyo Heights Road area who is familiar with one of the Mutual water systems being served from the Upper El Solyo Heights Tank. He gave me a tour of their water system as well as their connection to our tank. He also gave me contact information for another resident who is familiar with the second Mutual being served from our tank. I will be making contact with this resident to discuss their Mutual. This work is being done so the District can better understand the connections between our water system these Mutual water systems.

FELTON AREA WATER DISTRIBUTION SYSTEM MAPPING

Staff is working to add the Felton Water System to the 800 Scale System Map.

ADDITIONAL PROJECTS

Staff is working with several customers to provide fire flow to their new residences.
