

## MEMO

TO: District Manager

FROM: GIS/Engineering Technician

SUBJECT: ENGINEERING DEPARTMENT STATUS REPORT  
WEEK ENDING JUNE 12, 2009

DATE: June 11, 2009

### **RECOMMENDATION:**

It is recommended that the Board of Directors review and file the Engineering Department status report for the week ending June 12, 2009.

### **BACKGROUND:**

#### EGGLESON/AMOS ANNEXATION TO THE S.L.V. WATER DISTRICT

Staff is creating the required mapping for the Eggleston/Amos Annexation. The annexation area is located along the southwest side of Quail Hollow Road from Eggleston Lane to East Zayante Road. Staff is awaiting receipt of several documents, from LAFCO, that are required by our Surveyor to complete the legal description of the proposed annexation area. Once these documents are received the mapping can be completed and submitted for approval.

#### FELTON WATER SYSTEM ACCOUNT REVIEW

Staff is working with the Operations and Finance/Customer Service Departments to provide information and mapping necessary to update the existing Felton customer database to meet our current data requirements. This data will include parcel numbers, land use information, multiple user status, private mutual water systems, cross connection locations, fire sprinkler systems and pressure zone identification.

#### VARIOUS PROJECTS

Staff is working to assist several customers and their contractors to provide water system flow information for their domestic water meters and fire sprinkler system installation projects. Staff is adding the Felton water system information to the 800 Scale Water Distribution System Map.
