

MEMO

TO: District Manager

FROM: Engineering/GIS Department

SUBJECT: ENGINEERING DEPARTMENT STATUS REPORT
WEEK ENDING JANUARY 15, 2010

DATE: January 14, 2010

RECOMMENDATION:

It is recommended that the District Manager review and file the Engineering Department status report for the week ending January 15, 2010.

BACKGROUND:

CAMP CAMPBELL FACILITIES IMPROVEMENT PROJECT

The contractor has installed, pressure tested and passed disinfection testing for the new 8" water main creek crossing. The contractor will be connecting and putting the new section of water main into service by the end of the week.

SAN LORENZO VALLEY WATER DISTRICT - WATER SYSTEM STUDY MAP

Staff has received the Scotts Valley and Mount Hermon water system information and incorporated the data into the study map. After review the revised map will be forwarded to the consultant for their use.

VARIOUS PROJECTS

Staff is working with the Finance Manager to complete the addition of parcel number and pressure zone information for the Felton area customer database. Staff is working with the Watershed Analyst to provide GIS parcel data along with aerial photography to our consultant for a potential project to measure the carbon stored on District Watershed Land.
