

**TABLE OF CONTENTS**

**EXECUTIVE SUMMARY**.....ix

**LIST OF FIGURES**.....xv

**LIST OF TABLES**.....xviii

**ACKNOWLEDGMENTS**.....xx

**CHAPTER 1: INTRODUCTION**.....1-1

**1.0 Introduction and purpose**.....1-1

**1.1. Background**.....1-1

**1.2 The District’s partnerships in watershed protection**.....1-2

**1.3 Scope of document**.....1-3

**1.4 How to use this document**.....1-4

    Part I: Existing conditions.....1-4

    Part II: District goals, objectives, and management strategies.....1-4

**CHAPTER 2: OVERVIEW OF DISTRICT LANDS & WATER SUPPLY**.....2-1

**2.1 Regional setting: The Santa Cruz Mountains**.....2-1

**2.2 The San Lorenzo River watershed**.....2-2

    2.2.1 Topography.....2-2

    2.2.2 Climate.....2-2

    2.2.3 Biodiversity.....2-2

    2.2.4 Geology and soils.....2-3

    2.2.5 Human uses in the San Lorenzo River watershed.....2-3

        2.2.5.a Development.....2-3

        2.2.5.b Timber.....2-4

        2.2.5.c Mining.....2-5

        2.2.5.d Water extraction.....2-6

        2.2.5.e Farming and ranching.....2-7

        2.2.5.f Recreation and tourism.....2-7

        2.2.5.g Open space.....2-8

**2.3 Overview of the District’s land, water supply, and distribution system**.....2-10

    2.3.1 District watershed lands.....2-10

        2.3.1.a Foreman Creek.....2-11

        2.3.1.b Peavine Creek.....2-12

        2.3.1.c Silver Creek.....2-13

        2.3.1.d Clear Creek.....2-13

        2.3.1.e Sweetwater Creek.....2-13

        2.3.1.f Fall Creek.....2-14

        2.3.1.g Zayante Creek.....2-14

    2.3.2 District water supply from surface diversions.....2-14

    2.3.3 District wells and groundwater recharge lands.....2-17

        2.3.3.a The Olympia wellfield.....2-17

        2.3.3.b Quail Hollow wells.....2-20

        2.3.3.c Pasatiempo wells.....2-22

        2.3.3.d Mañana Woods well.....2-24

| <b>CHAPTER 3: HYDROLOGY, GEOMORPHOLOGY &amp; WATER QUALITY.....</b>                | <b>3-1</b>  |
| <b>3.0 Introduction.....</b>   | <b>3-1</b>  |
| <b>3.1 Overview of landscape evolution.....</b>                                    | <b>3-1</b>  |
| 3.1.1 Geologic formation of the Santa Cruz Mountains.....                          | 3-1         |
| 3.1.2 Geologic formation of the San Lorenzo River watershed.....                   | 3-2         |
| 3.1.3 Human impacts from land use changes.....                                     | 3-2         |
| <b>3.2 Hydrologic processes.....</b>   | <b>3-3</b>  |
| 3.2.1 Precipitation in the San Lorenzo River watershed.....                        | 3-3         |
| 3.2.2 Streamflow in the San Lorenzo River watershed.....                           | 3-6         |
| 3.2.3 Precipitation and streamflow in District water supply streams.....           | 3-10        |
| 3.2.4 Groundwater pumping and streamflow in the San Lorenzo River watershed.....   | 3-10        |
| 3.2.5 District groundwater storage and recharge.....                               | 3-11        |
| 3.2.5.a The northern service area.....   | 3-11        |
| 3.2.5.b The southern service area.....   | 3-16        |
| 3.2.5.c Mañana Woods.....  | 3-17        |
| <b>3.3 Soils, geology, and hillslope geomorphology.....</b>                        | <b>3-18</b> |
| 3.3.1 Soils.....   | 3-18        |
| 3.3.1.a Soil diversity in the San Lorenzo River watershed.....                     | 3-19        |
| 3.3.1.b High-cadmium soils.....  | 3-21        |
| 3.3.2 Geologic areas and soil types of the San Lorenzo River watershed.....        | 3-22        |
| 3.3.2.a Area 1: Ben Lomond Mountain geologic unit.....                             | 3-23        |
| 3.3.2.b Area 2: East of the Ben Lomond Fault and south of the Zayante Fault.....   | 3-26        |
| 3.3.2.c Area 3: North of the Zayante Fault.....                                    | 3-26        |
| 3.3.3 Hillslope geomorphology.....   | 3-29        |
| 3.3.3.a Soil erosion.....  | 3-29        |
| 3.3.3.b Erosion potential.....   | 3-30        |
| 3.3.3.c Channel conditions.....  | 3-32        |
| 3.3.3.d Sediment transport.....  | 3-32        |
| 3.3.3.e Bed sedimentation.....   | 3-35        |
| 3.3.3.f Sedimentation trends.....  | 3-36        |
| 3.3.3.g Upland sediment sources.....   | 3-38        |
| 3.3.3.h Bank erosion.....  | 3-38        |
| <b>3.4 Natural disturbances in the San Lorenzo River watershed.....</b>            | <b>3-40</b> |
| 3.4.1 Storms and floods.....   | 3-40        |
| 3.4.2 Wind.....  | 3-41        |
| 3.4.3 Landslides and mass-wasting.....   | 3-41        |
| 3.4.4 Earthquakes.....   | 3-43        |
| 3.4.5 Fire.....  | 3-43        |
| <b>3.5 Human-induced disturbances in the San Lorenzo River watershed.....</b>      | <b>3-44</b> |
| 3.5.1 Mass Wasting / Landslides.....   | 3-46        |
| 3.5.2 Roads.....   | 3-47        |
| 3.5.2.a Unpaved roads.....   | 3-48        |
| 3.5.2.b Continuous use of roads through the rainy season.....                      | 3-48        |
| 3.5.2.c Road slipouts and roadcut failures.....                                    | 3-48        |
| 3.5.2.d Undersized or faulty culverts and drains.....                              | 3-48        |
| 3.5.2.e Change in use from timber harvest to residential and recreational use..... | 3-49        |
| 3.5.2.f Failure to maintain logging roads.....                                     | 3-49        |
| 3.5.2.g Poor road construction practices.....                                      | 3-49        |
| 3.5.3 Logging.....   | 3-50        |
| 3.5.3.a Legacy impacts.....  | 3-50        |
| 3.5.3.b Cumulative impacts.....  | 3-51        |
| 3.5.4 Rural and urban development.....   | 3-52        |

*San Lorenzo Valley Water District Watershed Management Plan, Final Version*  
*Part I: Existing Conditions Report*

|  |             |
|--|-------------|
| 3.5.5 Agriculture.....   | 3-54        |
| 3.5.6 Livestock and equestrian uses.....   | 3-54        |
| 3.5.7 Mining.....  | 3-54        |
| <b>3.6 Human-induced disturbances on District watershed lands.....</b>                     | <b>3-55</b> |
| <b>3.7 District water quality.....</b>   | <b>3-56</b> |
| 3.7.1 Source water protection and drinking water treatment.....                            | 3-56        |
| 3.7.1.a District source water protection zones.....  | 3-56        |
| 3.7.1.b Maximum contaminant levels.....  | 3-58        |
| 3.7.2 Surface water quality.....   | 3-59        |
| 3.7.2.a Sediment and turbidity.....  | 3-59        |
| 3.7.2.b Nitrates.....  | 3-59        |
| 3.7.2.c Pathogens.....   | 3-62        |
| 3.7.2.d Toxic compounds.....   | 3-64        |
| 3.7.3 Groundwater quality.....   | 3-67        |
| 3.7.3.a Natural impacts to groundwater quality.....  | 3-67        |
| 3.7.3.b Human impacts to ground water quality.....   | 3-68        |
| 3.7.4 The connection between surface water, ground water, and water quality.....           | 3-69        |
| <b>CHAPTER 4: BIOTIC RESOURCES.....</b>  | <b>4-1</b>  |
| <b>4.0 Introduction.....</b>   | <b>4-1</b>  |
| <b>4.1 Biodiversity at regional and watershed scales.....</b>                              | <b>4-1</b>  |
| 4.1.1 The role of natural disturbance in biodiversity.....                                 | 4-1         |
| 4.1.2 The role of recent human disturbance.....  | 4-2         |
| <b>4.2 Major plant communities of the region, the watershed, and District lands.....</b>   | <b>4-2</b>  |
| 4.2.1 Redwood and mixed-redwood forests.....   | 4-2         |
| 4.2.1.a Habitat and range.....   | 4-2         |
| 4.2.1.b Attributes.....  | 4-3         |
| 4.2.1.c Redwood and mixed redwood forest of the San Lorenzo River watershed.....           | 4-3         |
| 4.2.1.d Redwood and mixed redwood forest on District land.....                             | 4-4         |
| 4.2.2 Black oak woodland plant communities.....  | 4-6         |
| 4.2.3 Mixed evergreen forest plant communities.....  | 4-6         |
| 4.2.3.a Sudden oak death.....  | 4-7         |
| 4.2.4 Chaparral plant communities.....   | 4-8         |
| 4.2.5 Plant communities of the Santa Cruz sandhills.....                                   | 4-8         |
| 4.2.5.a Sand chaparral.....  | 4-9         |
| 4.2.5.b Sand parkland.....   | 4-9         |
| 4.2.5.c Habitat.....   | 4-9         |
| 4.2.5.d Range.....   | 4-9         |
| 4.2.5.e Special status plant species of the sandhills.....                                 | 4-11        |
| 4.2.5.f Loss of sand chaparral and sand parkland communities.....                          | 4-12        |
| 4.2.6 Riparian woodland plant communities.....   | 4-12        |
| 4.2.6.a Riparian woodland in the San Lorenzo River watershed.....                          | 4-12        |
| 4.2.6.b Riparian woodland on District-owned land.....                                      | 4-12        |
| 4.2.7 Grassland plant communities.....   | 4-14        |
| 4.2.8 Other endemic, rare, and endangered plant species of the region.....                 | 4-14        |
| <b>4.3 Wildlife species of the region, the watershed, and District lands.....</b>          | <b>4-16</b> |
| 4.3.1 Wildlife species of redwood and mixed redwood forest communities.....                | 4-16        |
| 4.3.2 Wildlife species of old-growth and late-successional redwood forest communities..... | 4-17        |
| 4.3.3 Wildlife species of riparian plant communities.....                                  | 4-20        |
| 4.3.4 Wildlife species of chaparral plant communities.....                                 | 4-21        |
| 4.3.5 Wildlife habitat and species of the Santa Cruz sandhills.....                        | 4-21        |

*San Lorenzo Valley Water District Watershed Management Plan, Final Version*  
*Part I: Existing Conditions Report*

|  |             |
|--|-------------|
| <b>4.4 Aquatic habitat and fisheries of the region, the watershed, and District lands.....</b> | <b>4-24</b> |
| 4.4.1 Characteristics of a healthy stream.....   | 4-25        |
| 4.4.2 The food web in aquatic ecosystems.....  | 4-26        |
| 4.4.3 Large instream wood as a component of aquatic habitat.....                               | 4-27        |
| 4.4.4 Distribution of large instream wood.....   | 4-30        |
| 4.4.5 Salmonids and other native fishes in the San Lorenzo River watershed.....                | 4-33        |
| 4.4.6 Life history of native salmonids.....  | 4-33        |
| 4.4.7 Monitoring of salmonids in the San Lorenzo River.....                                    | 4-34        |
| 4.4.8 Salmonids on District-owned land.....  | 4-34        |
| 4.4.9 Decline of salmonids on the Central Coast.....   | 4-36        |
| 4.4.10 Decline of salmonids within the San Lorenzo River watershed.....                        | 4-36        |
| 4.4.10.a Decline of coho.....  | 4-36        |
| 4.4.10.b Decline of steelhead.....   | 4-37        |
| 4.4.10.c Requirements for salmonid rearing habitat.....  | 4-37        |
| 4.4.10.d Limiting factors for local salmonids.....   | 4-38        |
| 4.4.11 Reptiles and amphibians.....  | 4-39        |
| <b>4.5 Ecosystem functions and natural services.....</b>                                       | <b>4-41</b> |
| 4.5.1 Ecosystem functions of old-growth and late successional forests.....                     | 4-42        |
| 4.5.1.a Ecosystem functions of forest soils.....   | 4-42        |
| 4.5.1.b Ecosystem functions of snags.....  | 4-43        |
| 4.5.1.c Ecosystem functions of downed logs.....  | 4-44        |
| 4.5.2 Ecosystem functions of the riparian zone.....  | 4-45        |
| 4.5.2.a Nutrient distribution and flooding.....  | 4-46        |
| 4.5.2.b Hydrologic function.....   | 4-47        |
| 4.5.2.c Water quality enhancement.....   | 4-47        |
| 4.5.2.d The riparian zone in the San Lorenzo River watershed.....                              | 4-48        |
| <b>4.6 Human impacts to biotic resources.....</b>  | <b>4-49</b> |
| 4.6.1 Development.....   | 4-50        |
| 4.6.2 Roads.....   | 4-50        |
| 4.6.3 Logging.....   | 4-51        |
| 4.6.3.a Habitat degradation from logging.....  | 4-51        |
| 4.6.3.b Loss of large instream wood after logging.....   | 4-55        |
| 4.6.4 Water diversions and pumping.....  | 4-55        |
| 4.6.4.a Water diversions.....  | 4-55        |
| 4.6.4.b Groundwater pumping.....   | 4-56        |
| 4.6.5 Mining and quarries.....   | 4-56        |
| 4.6.6 Recreational use.....  | 4-57        |
| 4.6.7 Chemicals and pesticides.....  | 4-58        |
| 4.6.8 Exotic species.....  | 4-58        |
| 4.6.8.a Exotic mammals.....  | 4-59        |
| 4.6.8.b Exotic aquatic animal species.....   | 4-59        |
| 4.6.8.c Exotic invasive plants.....  | 4-59        |
| <b>CHAPTER 5: FIRE MANAGEMENT.....</b>   | <b>5-1</b>  |
| <b>5.0 Introduction.....</b>   | <b>5-1</b>  |
| <b>5.1 Historical fire regimes in the Monterey Bay Area.....</b>                               | <b>5-2</b>  |
| 5.1.2 Lightning Regime.....  | 5-3         |
| 5.1.3 Aboriginal Regime.....   | 5-3         |
| 5.1.4 Spanish Mexican Regime.....  | 5-3         |
| 5.1.5 Anglo Regime.....  | 5-3         |
| 5.1.6 Recent Regime.....   | 5-4         |
| <b>5.2 Fire in the San Lorenzo River watershed.....</b>  | <b>5-6</b>  |

*San Lorenzo Valley Water District Watershed Management Plan, Final Version*  
*Part I: Existing Conditions Report*

|   |             |
|---|-------------|
| <b>5.3 Potential impacts to water resources from wildfire.....</b>                        | <b>5-6</b>  |
| 5.3.1 Expected aftermath of a high intensity fire at the watershed scale.....             | 5-6         |
| 5.3.1.a Alteration of surface hydrology and sedimentation.....                            | 5-7         |
| 5.3.1.b Chemical impacts to water quality from fire retardants.....                       | 5-7         |
| 5.3.1.c Habitat degradation and loss.....   | 5-7         |
| 5.3.2 Expected aftermath of a high intensity fire on District-owned lands.....            | 5-8         |
| <b>5.4 Fire management jurisdictions and practices.....</b>                               | <b>5-8</b>  |
| <b>5.5 Forest management and fire in the Santa Cruz Mountains.....</b>                    | <b>5-9</b>  |
| 5.5.1 Forest management and fire in the San Lorenzo River watershed.....                  | 5-11        |
| 5.5.2 Forest management and fire on District lands.....                                   | 5-11        |
| <b>5.6 Assessing fire hazard and risk.....</b>  | <b>5-12</b> |
| 5.6.1 Sources of ignition.....  | 5-12        |
| 5.6.2 Weather conditions leading to increased fire hazard.....                            | 5-15        |
| 5.6.3 Increased hazard from Sudden Oak Death and invasive species.....                    | 5-16        |
| <b>5.7 Water utility fire management plans.....</b>                                       | <b>5-16</b> |
| <b>5.8 Modeling fire.....</b>   | <b>5-16</b> |
| <br>  |             |
| <b>CHAPTER 6: CULTURAL, HISTORICAL, RECREATIONAL<br/>&amp; EDUCATIONAL RESOURCES.....</b> | <b>6-1</b>  |
| <b>6.0 Introduction.....</b>  | <b>6-1</b>  |
| <b>6.1 Cultural and historical resources in the San Lorenzo River watershed.....</b>      | <b>6-1</b>  |
| 6.1.1 Ohlone history and archeology.....  | 6-1         |
| 6.1.2 Land-use history of the watershed.....  | 6-2         |
| 6.1.2.a Landmarks of past of logging.....   | 6-2         |
| 6.1.2.b Landmarks of past mining.....   | 6-2         |
| 6.1.3 History of the District and District-owned lands.....                               | 6-4         |
| <b>6.2 Recreational resources.....</b>  | <b>6-7</b>  |
| 6.2.1 History of tourism and recreation in the San Lorenzo River watershed.....           | 6-7         |
| 6.2.2 Present day tourism and recreational opportunities in the watershed.....            | 6-8         |
| 6.2.2.a State Parks.....  | 6-8         |
| 6.2.2.b County Parks.....   | 6-9         |
| 6.2.2.c City parks.....   | 6-9         |
| 6.2.3 Recreation outside of the park system.....  | 6-9         |
| 6.2.4 Recreation on District-owned lands.....   | 6-10        |
| 6.2.4.a Trespass and its impacts on rare habitat.....                                     | 6-10        |
| 6.2.4.b Potential benefits of limited recreational uses.....                              | 6-11        |

**CHAPTER 7: LOCAL CLIMATE CHANGE ASSESSMENT**

|   |             |
|---|-------------|
| <b>7.0 Introduction.....</b>  | <b>7-1</b>  |
| <b>7.1 Overview of the evidence for global climate change.....</b>                        | <b>7-1</b>  |
| 7.1.2 The greenhouse effect.....  | 7-1         |
| 7.1.3 Observed long-term changes.....   | 7-1         |
| 7.1.4 Abrupt climate change.....  | 7-2         |
| 7.1.5 The carbon cycle.....   | 7-3         |
| 7.1.6 Restoring balance to the carbon cycle.....  | 7-4         |
| <b>7.2 The two aspects of climate change: Mitigation and adaptation.....</b>              | <b>7-5</b>  |
| 7.2.1 District planning to date for climate change mitigation and adaptation.....         | 7-5         |
| <b>7.3 General projections of global climate change.....</b>                              | <b>7-6</b>  |
| <b>7.4 General projections of climate change for California.....</b>                      | <b>7-6</b>  |
| <b>7.5 Approaches of assessing climate change at the local scale.....</b>                 | <b>7-7</b>  |
| 7.5.1 Downscaling from global climate models.....   | 7-7         |
| 7.5.2 Using localized hydrologic models.....  | 7-7         |
| <b>7.6 Adaptation: Climate change and water resource management.....</b>                  | <b>7-8</b>  |
| <b>7.7 Adaptation: Using climate change models to predict local vulnerabilities.....</b>  | <b>7-8</b>  |
| <b>7.8 Adaptation: Preparing for historic local extreme climate events.....</b>           | <b>7-9</b>  |
| <b>7.9 Forests, climate change, and carbon sequestration.....</b>                         | <b>7-10</b> |
| 7.9.1 Forests as carbon sinks.....  | 7-10        |
| <b>7.10 The California Climate Registry and carbon credits for forestland owners.....</b> | <b>7-13</b> |
| 7.10.1 The Climate Registry.....  | 7-14        |
| 7.10.2 CCAR Forest Protocols.....   | 7-14        |
| 7.10.3 Carbon credits for forest landowners conserving forests.....                       | 7-15        |
| 7.10.4 The District’s forestland, carbon sequestration, and potential carbon credits..... | 7-16        |

**APPENDIX A: FISHERIES.....A-1**

|   |             |
|---|-------------|
| <b>A.0 Introduction.....</b>                                      | <b>A-1</b>  |
| A.0.1 Native fishes.....  | A-2         |
| A.0.2 Native estaurine fish species.....                          | A-10        |
| A.0.3 Non-native fishes.....                                      | A-10        |
| <b>A.1 Life cycles and habitat requirements of salmonids.....</b> | <b>A-10</b> |
| A.1.1 Spawning habitat requirements.....                          | A-12        |
| A.1.2 YOY and smolt habitat requirements.....                     | A-12        |
| A.1.3 General habitat requirements for salmonids.....             | A-13        |
| A.1.4 Natural history of steelhead.....                           | A-13        |
| A.1.4.a Life span and survival rates.....                         | A-13        |
| A.1.4.b Spawning.....   | A-14        |
| A.1.4.c Egg incubation and fry emergence.....                     | A-15        |
| A.1.4.d Juveniles.....  | A-15        |
| A.1.4.e Importance of juvenile size classes.....                  | A-16        |
| A.1.4.f Juvenile habitat requirements.....                        | A-17        |

*San Lorenzo Valley Water District Watershed Management Plan, Final Version*  
*Part I: Existing Conditions Report*

|  |             |
|--|-------------|
| A.1.4.g Smolts.....  | A-19        |
| A.1.5 Natural history of coho salmon.....  | A-20        |
| A.1.5.a Spawning.....  | A-20        |
| A.1.5.b Incubation and emergence.....  | A-22        |
| A.1.6 Juvenile coho.....   | A-22        |
| A.1.7 Coho smolts.....   | A-22        |
| <b>A.2 Ecological role of salmonids.....</b>   | <b>A-23</b> |
| <b>A.3 Decline of salmonids throughout their range.....</b>  | <b>A-23</b> |
| A.3.1 Decline of coho.....   | A-23        |
| A.3.2 Decline of steelhead.....  | A-25        |
| <b>A.4 Decline of salmonids within the San Lorenzo River watershed.....</b>  | <b>A-27</b> |
| A.4.1 Decline of steelhead in the watershed.....   | A-27        |
| A.4.2 Decline of coho in the watershed.....  | A-28        |
| A.4.3 Habitat conditions 1950-1975.....  | A-28        |
| A.4.5 Recent habitat conditions.....   | A-29        |
| <b>A.5 Aquatic habitat typing.....</b>   | <b>A-31</b> |
| A.5.1 Local stream reaches.....  | A-33        |
| A.5.1.a Upper mainstem.....  | A-33        |
| A.5.1.b The middle mainstem.....   | A-35        |
| A.5.1.c The lower mainstem.....  | A-36        |
| A.5.1.d Tributaries.....   | A-37        |
| <b>A.6 Limiting factors to steelhead survival in the San Lorenzo River.....</b>  | <b>A-40</b> |
| A.6.1 Streambed sedimentation.....   | A-42        |
| A.6.2 Decreased stream flow.....   | A-43        |
| A.6.2.a Municipal water extraction and well-pumping.....   | A-45        |
| A.6.2.b Stream flow & steelhead densities in the San Lorenzo River.....  | A-46        |
| A.6.3 Absence of large instream wood.....  | A-53        |
| A.6.4 Barriers to anadromy.....  | A-54        |
| A.6.4.a Types of passage barriers.....   | A-54        |
| A.6.4.b Location of passage barriers.....  | A-56        |
| A.6.4.c Effect of streamflows on passage barriers.....   | A-53        |
| A.6.5 Poor water quality.....  | A-60        |
| A.6.5.a Water temperature.....   | A-59        |
| A.6.5.b Dissolved oxygen.....  | A-62        |
| A.6.6 Other potentially limiting factors to salmonids.....   | A-62        |
| A.6.6.a Hatchery fish planting.....  | A-62        |
| A.6.6.b Pinniped predation (seals and sea-lions).....  | A-64        |
| A.6.6.c Freshwater sport fishing.....  | A-65        |
| <b>A.7 Quantitative assessment of juvenile steelhead &amp; coho salmon populations</b><br><b>    in the San Lorenzo River.....</b> | <b>A-66</b> |
| A.7.1 Overall mainstem trend in smolt-sized juveniles, 1994-2001.....  | A-67        |
| A.7.2 Overall watershed trend in smolt-sized juveniles, 1998-2001.....   | A-68        |
| A.7.3 Overall mainstem trend in total number of juveniles, 1996-2001.....  | A-68        |
| A.7.4 Overall tributary trend in yearling (smolt-sized) juveniles, 1998-2001.....  | A-70        |
| A.7.5 Trends in smolt-sized juveniles in the middle and upper mainstem<br>and four upper tributaries, 1998-2005.....               | A-70        |
| A.7.6 Trends in index of adult returns.....  | A-72        |
| <b>A.8 Comparison of fish sampling methods.....</b>  | <b>A-74</b> |
| <b>A.9 Recovery efforts for coho salmon and steelhead.....</b>   | <b>A-76</b> |
