## **SLV Water District to Replace Storm-damaged Water Main on Bear Creek Road**

*Notice of Road Closure: Work will be performed at night to  
minimize impacts on the community*

BOULDER CREEK, CA – The San Lorenzo Valley Water District (SLVWD) today announced it is working with the County of Santa Cruz Department of Public Works to replace a water main on Bear Creek Road that was damaged when the road was washed out by heavy rains in January.

This work will require closing Bear Creek Road at the stoplight (mile post marker 0.2) from 9 p.m. to 5 a.m. from Monday, July 24, through Friday, July 28, 2017. Construction activities will be performed during the night to minimize traffic impacts on the community. Emergency services have been notified and have implemented contingencies for response.

Immediately after the storm damage occurred, SLVWD crews rerouted water service in the area through a bypass line to ensure customers had access to water. The District has applied for FEMA funds to assist with the cost of repairs.

### **ABOUT THE SAN LORENZO VALLEY WATER DISTRICT**

The San Lorenzo Valley Water District is located in the mountains of northern Santa Cruz County. The district serves more than 7,800 metered connections. Established in 1941, the district supplies water to the communities of Boulder Creek, Brookdale, Ben Lomond, Zayante, Scotts Valley, Mañana Woods, Felton and Lompico.
