TO: Board of Directors

FROM: District Manager

DATE: JULY 25, 2007

SUBJECT: AGREEMENT FOR WATER SERVICE; APN 090-131-15

RECOMMENDATION:

It is recommended that the Board of Directors review this memo and approve the attached resolution authorizing and directing the District Manager to execute the subject agreement on behalf of the District.

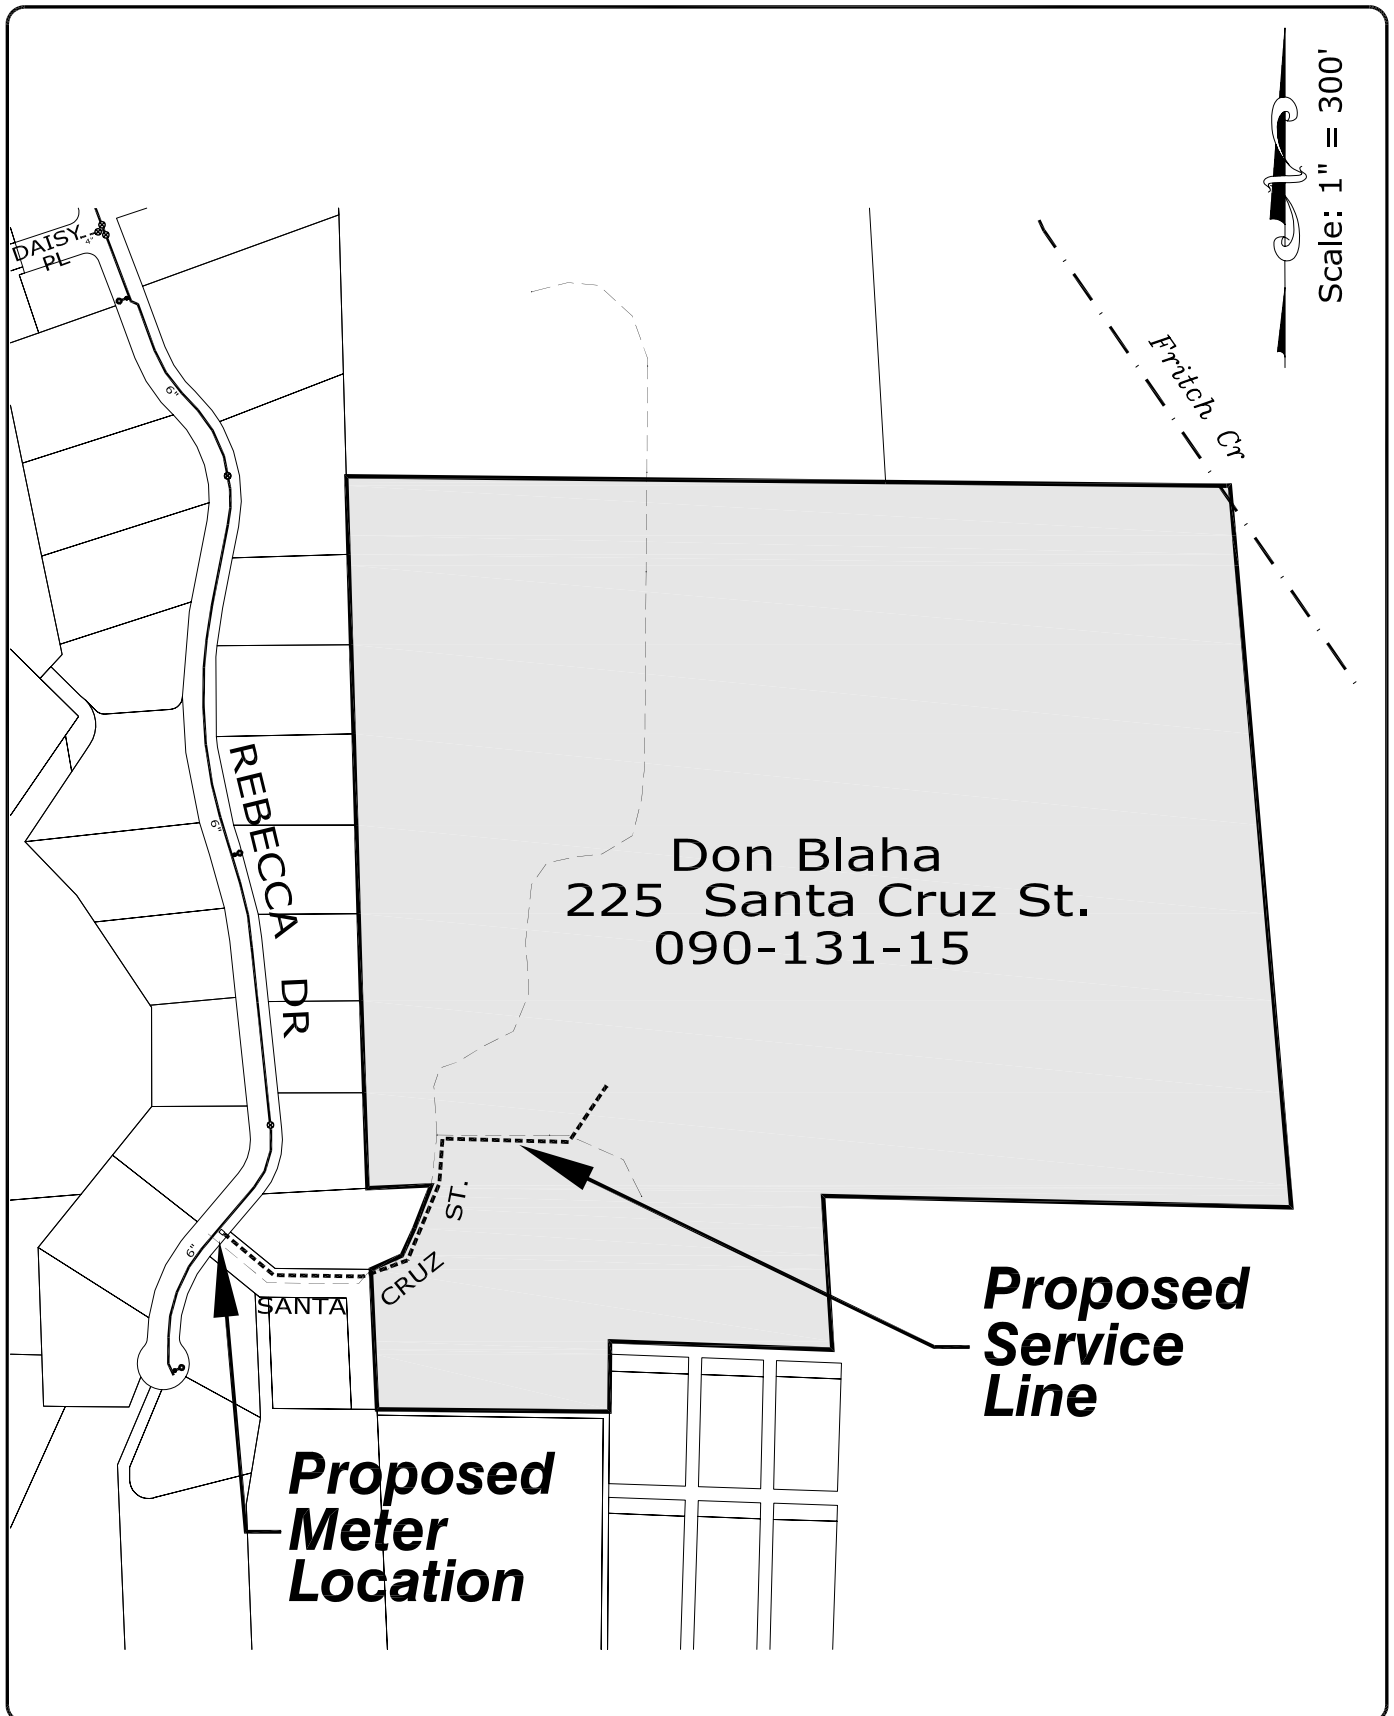

BACKGROUND:

On June 5, 2007, Mr. Don Blaha applied for water service to APN 090-131-15 generally located at 225 Santa Cruz Street, Boulder Creek. Staff review indicates that the District has no water distribution facilities located on this portion of Santa Cruz Street and recommends that water service be provided by a long service line agreement.. From the location of the existing water mainline along Rebecca Drive Mr. Blaha needs a long service line to the subject parcel. See Attachment 1.

In the past the District has authorized long service line agreements where future water mainline extensions were not likely to be constructed. In order to install long service lines, it is necessary for the application to cross privately owned parcels. The applicant is required to provide the District with proof of right-of-way. The applicant is required to participate in any future water mainline extension should such mainline provide service to the subject parcel.

It is recommended that the Board of Directors approve the attached resolution which authorizes a long service line agreement for APN 090-131-15.
