

HOWL's First Annual River Clean Up Day!
October 10, 2009
Meet at Henry Cowell at 10 am
Potluck Picnic from 1-2

Did you enjoy the river this summer? The HOWL pack sure did and along the way we noticed that the river needs our help before winter rains arrive. Please come support HOWL and your local watershed by helping the pack pick up trash, pull invasive species, and hopefully plant some native plants along the river. After we are done working, we will share a potluck picnic with the pack. Please bring a favorite dish to share. Come enjoy a day with families and friends, while making a difference for our environment.

We will meet at the Highlands Upper Parking Lot and divide into smaller groups to help different spots along the San Lorenzo river and other creeks in the watershed.

If you know of a river location that needs assistance please let me know!

Participants will receive a steel HOWL water bottle thanks to generous support by San Lorenzo Valley Water District.

If you would just like your child to participate, please call 236-4530.

Hope to see you there!

Sarah Brummel

Please pass this on to other families in the area that might be interested in helping out.
