

ADDENDUM NO. 2

November 21, 2022

to the Request for Proposal for
Construction Bids
for the

FALL CREEK FISH LADDER REHABILITATION PROJECT
OCTOBER 2022 REBID

TO ALL PROSPECTIVE BIDDERS:

Addendum No. 2 provides for deletions, corrections, clarifications, and additions to the Request for Proposal (RFP) for Construction Bids for the Fall Creek Fish Ladder Rehabilitation Project; these deletions, corrections, clarifications, and additions shall apply in the same manner as if they were originally part of the RFP.

1. Questions raised at the Pre-Bid Meeting:

- a. Availability of previously used diversion pipe and quantity thereof?
 - i. The previously installed diversion consisted of approximately 275-LF of 12-in HDPE pipe. The District has approximately 200-LF of 12-in HDPE pipe on site and an additional approximately 75-LF of 12-in HDPE stored elsewhere. All of this material is available for Contractor use on the project.
- b. Restoration requirement for landscaping?
 - i. The Contractor shall not be responsible for restoration of vegetation; such restoration shall be the responsibility of the District or Project Biologist.

2. Regulatory Agency Requirements:

- a. California Department of Fish and Wildlife (CDFW) limits work to daylight hours, one hour after sunrise to one hour before sunset.
- b. Per the Regional Water Quality Control Board (RWQCB) 401 Cert, at any time of year, no construction activities will occur below top of bank or in other waters of the State during rain events or on any day for which the National Weather Service has predicted a 25% or more chance of at least 0.1 in rain in 24 hours. The permittee shall install effective erosion control, sediment control, and other protective measures no later than the day prior to the predicted rain event and prior to the start of any rainfall. Construction activities below top of creek banks or in other waters of the State may resume after the rain has ceased, the National Weather Service predicts clear weather for at least 24 hours, and site conditions are dry enough to continue work without discharge of sediment or other pollutants from the project site.
- c. All workers performing any task on the job site shall attend a worker's education training session; such session shall be provided by the District's Biologist and Contractor shall coordinate schedule with the District.

3. Revisions to RFP:

- A. Volume I, Section 01060, paragraph 1.01 B. states "*Permits: The Contractor shall submit copies of permits required by regulatory authorities and shall retain copies of the permits at the site.*" This paragraph shall be revised to read as follows: "*Permits: The Contractor shall be provided with copies of permits required by regulatory authorities and shall retain copies of the permits at the*

site.”

- B. Volume I, Section 01060, paragraph 1.08 A. states “*The Contractor shall obtain all other permits and pay permit fees required by agencies and authorities having jurisdiction. The costs for the permits inspections shall be included in the price entered in the Bidding Sheet.*” This paragraph shall be revised to read as follows: “The District will obtain all other permits and pay permit fees required by agencies and authorities having jurisdiction. Contractor shall coordinate with District to obtain any such permits.” ~~The costs for the permits inspections shall be included in the price entered in the Bidding Sheet.~~
